

Mini Pine Nuggets \$56.95/yd.

Content: Pine Bark from North Carolina
Color: Rust Brown
Weight: Approx. 475 lbs.
GOOD: Stays loose and allows air to penetrate.
 Has a high resistance to fungi and molds.
 Lasts longer than regular mulch.
BAD: Is not as fine as regular mulch.
 Moves around in wind and water.
Application: Spread 4-6" around trees and shrubs.

Wood Cover \$33.95/yd.

10 + yd. loads \$32.95/yd.
20 + yd. loads \$31.95/yd.

Content: ½"-1" Chipped Virgin Forest Wood
Color: Light to Medium Brown
Weight: Approx. 500 lbs.
GOOD: Lasts longer for playground areas and walkways.
Four Step Application:
1. Dig out 10"
2. Fill 4" with ¾" Bluestone
3. Cover with Landscape Fabric
4. Fill with at least 6" of Wood Cover
SAFETY FIGURE:
1" of Wood Cover needed for every foot of fall.
(Example): Swing is 8' high—Need 8" of Wood Cover

Pine Straw \$9.50/bale

Contents: Pine Needles are found on the ground in forests from North Carolina down to Florida. The needles are gathered and baled into small bales.
Color: Rust Brown
GOOD: Light weight and small bales
 Resistant to fungi and weeds/ High acid
 Doesn't "cake" like regular mulch
BAD: Not as fine as mulch
Application: One bale covers approx. 25 Sq. Ft. when spread 5-6" deep.
